*Madrid, 27 June 2017.* Art Madrid Contemporary Art Fair is celebrating its thirteenth edition from 21 to 25 February 2018. And we are doing this without superstitions, with the expertise of 13 years of work, and with faith in a great project, and in a great space, the Crystal Gallery of CentroCentro Cibeles.

The countdown to the celebration of Art Madrid'18 Contemporary Art Fair has just begun. We have 34 weeks, 239 days, 5,736 hours and 20 million seconds to give shape to the best Art Fair ... and we want to do it with you.

We look for national and international galleries dedicated to contemporary and emerging art in all its disciplines, painting, sculpture, photography, printmaking, video art, installations, 3D devices, to participate in the General Program of Art Madrid'18, the second major fair of contemporary art of our country and a key piece of Madrid Art Week, a highlight in the cultural agenda with an annual fluency of more than 100,000 professionals, collectors and art lovers from around the world. The fair presents, in turn, the program ONE PROJECT, a curated section that selects and displays the work of eight artists in solo-show format with unpublished projects, multidisciplinary and specific for the space at the fair.

Art Madrid is for the last years the largest space dedicated to contemporary art in the center city, with more than 2000m<sup>2</sup> of exhibition with the latest trends and creations of artists of long and middle-career, and young emerging talents. A venue that allow us to fulfill two of our great objectives: to bring art to all audiences and to be a reference among new collectors.

Art Madrid'18 will choose as every year a Guest Artist with which we will make a special edition for collectors; and will have a complete Activities Program, dedicated in previous editions to the relationship between art and Technology or gender issues, and whose theme for 2018 will be unveiled very soon.
